Raspberry coulis can be made and kept in the refrigerator for up to 1 week.

Method

Method

Place all ingredients into a medium pot on induction level 6 or FlameSelect level 7 on a medium sized burner and simmer for 20 minutes. Remove from heat and use a stick blender to puree the mixture. Alternatively, pour the mixture into a blender and blend for 1 minute on medium.

Place a sieve over a mixing bowl, pour the puree into the sieve and using the back of a dessert spoon work the puree through, all the seeds should be left behind. Scrape the bottom of the sieve and discard the seeds. Cool the coulis until ready to serve.
