

# Slide&Hide®: the oven feature you didn't know you needed

Have you ever bought a kitchen gadget and thought, 'how did I ever live without this?' Here at NEFF we definitely have! From a time-saving blender to a handy knife sharpener, there's just some things that are a must-have for keen cooks. And our [Slide&Hide®](#) oven is one of them.

## What is Slide&Hide®?

We're so glad you asked! [Slide&Hide®](#) is NEFF's trademark retractable oven door system. Upon opening, the oven door slides under the cavity, allowing you to gain complete access to your cooking environment. It's out of the way – meaning you have more space to focus on cooking and creating!

## What's so good about Slide&Hide®?

Picture the scene: it's a Sunday afternoon and you're about to take your delicious roast out of a very hot oven. You open the door, lean in to remove the heavy dish and on the way back out you burn hand on the side of the door. Ouch! It's probably a familiar story to most, and a painful one at that.

Which is exactly why we created our unique Slide&Hide® oven door. Gone are the days of juggling your dish around a hot glass door!

## What's the best oven?

We're a little biased but our NEFF Slide&Hide® ovens have been [loved by customers for 20 years](#) now. And our [built-in pyrolytic oven](#) is a crowd favourite. With its self-cleaning and [CircoTherm®](#) functions, this appliance makes cooking a breeze. And if you need more proof, it's also been [recommended by consumer agency Choice](#) six years in a row. How's that for customer quality?

Here are some more of the benefits:

- **Better access:** Slide&Hide® allows for flexible cooking, letting you baste, taste and monitor food easily during the cooking process.
- **Easier lifting:** With better access to the oven cavity, it's also easier to lift out heavy or large items, avoiding the dangers of drops or spills.
- **Perfect for small kitchens:** The disappearing door allows for one or more people to easily move around the kitchen.
- **Comfortable, rotating handle:** The revolutionary Slide&Hide® handle is easy on the wrist so you can use it year after year, without strains.
- **German made since 1877:** Our state-of-the art NEFF factory produces over 600,00 ovens a year, all to the exacting standards of testing and quality control you would expect from a leading German brand.
- **Backed with a 4 year warranty:** We are so confident in the quality of our products that we offer customers a 4 year warranty on parts and labour.
- **Award-winning:** Our B57CR22N0B Slide&Hide® Oven [has won the Choice Best Performing Oven award four years running.](#)

And if that's not enough, listen to what our customers have to say about Slide&Hide®:

"The oven fits perfectly in my new kitchen and the slide away door works beautifully; with the extra telescopic rails I purchased being the icing on the cake."

"The Neff range is suitable for all ranges of cooks and the Slide&Hide® door is definitely a stand-out feature on the ovens."
