

5 NEFF appliances to include when renovating your holiday home kitchen

The holiday home is a place to relax, enjoy and forget about the outside world. It's also a place to entertain friends and family and create lifelong memories. So, when it comes to renovating your second kitchen, why not include some functionality with these NEFF products?

Oven(s) of course

Whether you're cooking dinner for two or inviting the whole family around for a celebration, NEFF's oven range have been a stalwart in the kitchen for more than 140 years. Our favourite, the Choice recommended [B57](#) oven with [CircoTherm®](#) technology, allows you to cook multiple dishes simultaneously on four oven levels, without compromising the precision or speed or allowing the flavours to intermingle.

Or if you're looking to save space and improve the functionality of the kitchen at your holiday home, hybrid appliances like [NEFF's compact oven with built-in microwave function](#) are a must. Instead of making space for two separate appliances, combining the two means there's more cupboard or bench space for you to use on other things.

Built-in coffee machine

There's nothing better, in our humble opinion, than waking up while on holidays to the smell of a freshly brewed coffee. And when you can make that coffee from an app on your phone, like with [NEFF's built-in coffee machine](#) with Home Connect, things really couldn't get much better. The WIFI-enabled technology means you can control everything from a smart-phone app. Then voila, your morning latte is ready before you are.

Fully integrated dishwasher

The sleek look of integrating a dishwasher into cabinetry is something that

can add instant class to a kitchen. It also helps reduce visual clutter, which can make a world of difference if you're working with a smaller space in your holiday home. But most importantly, [NEFF's range of fully integrated dishwashers](#) will do the heavy lifting when it comes to washing up, so you have more time to relax. The range also has built-in simple touch technology, which allows you to open the door with a light touch or bump of your hip – perfect for when you have your arms full. And the [Aqua Stop](#) system ensures your dishwasher is leak-proof.

Warming drawer

Warming drawers are a kitchen addition that come in handy whatever your mealtime looks like. From warming plates for a dinner party to keeping toast heated while you're cooking Sunday breakfast, warming draws are worth their weight in gold. And because of its neat look, [our built-in warming draw](#) (which comes in two sizes) can be seamlessly integrated into your kitchen.

Vented induction cooktop

Lastly, the benefits of induction cooktops have long been known – fast-heating, slow melting and powerful, to name a few. But [NEFF's vented induction cooktop](#) also eradicates the need for a bulky rangehood by smartly drawing steam and smells down and away through a vent in the middle. This means you can create the open-plan kitchen of your dreams, with a cooktop on your island bench and the ability to serve breakfast from pan to plate. More space saving, anyone?

So, whether you're undertaking an entire kitchen renovation or just looking to update your holiday home appliances here and there, we promise you'll fall in love with [NEFF's products](#).

You can attend a [free NEFF demonstration](#) near you to learn more about the full range of NEFF products and see these in person for yourself to best understand how they can bring your dream kitchen to life.
