COOKING PASSION SINCE 1877

Elevate your cooking experience and add these quality appliances to your renovation wish-list

Appliances can make a huge difference in the kitchen. That's why we've shared out top 5 appliances all home cooks should add to their kitchen reno wish list.

1. Cooktops

A good cooktop can really elevate your cooking. **NEFF's vented induction cooktop**, which sucks steam and smells down and away immediately, can also replace the need for a bulk rangehood. And their sleek style ensures nothing detracts from your space. It also fits seamlessly on an island bench or out of the way in smaller kitchen. With its reduced noise function, you can remain part of the conversation, fun and frivolity while cooking.

2. Ovens

If you love to cook and create, then having a reliable oven is a must. The **NEFF Slide & Hide®** is the perfect option for those who love a weekend roast or if you enjoy baking up a storm. Not only does it have great cooking features like **Circo Therm®** and **Full Steam**, but it also has a fully disappearing oven door to make checking on your **blueberry dump cake** or **hasselback potatoes** (or whatever else you're cooking) easy as pie.

The best part about these ovens, is that they have an innovative cleaning function that does the heavy lifting for you. This function traps the grease and grim that can occur during cooking and breaks it all down for you. And when you cook with high temperatures, the walls of your oven clean themselves – how neat is that!

You can also add another NEFF oven on top of beside the Slide & Hide® for optimal cooking. Two ovens is also a great option for those with a growing family who want a bit of extra fire-power when it comes to meal time.

3. Built-in coffee machine

This one is for all the coffee lovers out there. An in-built coffee machine can help you save valuable bench space, while also adding at touch of luxury to your kitchen. The **NEFF built-in coffee machine** can make your daily latte or espresso with a beautiful, rich aroma without the bitterness that often comes with strong coffee.

You can even use the coffee machine to brew some coffee for a tasty **coffee-flavoured dish**, like **coffee-spiced pulled pork buns** or **mini coconut and coffee bundt cakes**.

If you have the **NEFF Home Connect** app, you can try out **coffee drinks from across the globe**, set your own coffee-drinking playlist, and you can make your coffee with a few taps of your phone screen.

4. Pendant lights

It might sound small, but a simple pendant light can really change the style of your kitchen, and even give it an entirely new look or feel. Whether you're into an industrial or Hampton's style, or just want to add an extra feature to your space, hanging a pendant light – or a series of pendant lights – can make it feel like new. Lights can also help add a layer of depth to your room that may not have previously been there.

5. Integrated dishwasher

Every kitchen needs a **dishwasher**. But why opt for the traditional stainless-steel ones, when you can have one that blends in seamlessly with your kitchen's design? Enter the fully integrated dishwasher. The **NEFF fully integrated dishwashers** are designed to be sleek, stylish and hidden entirely from view. And these dishwashers have some pretty handy features for getting a nice sparkle on your dishes – such as having an additional basket for other cooking utensils and the Chef 70°C program to help remove stubborn residue. Having a quality dishwasher can help keep your kitchen neat, tidy and functional for doing what matters most – creating memories with loved ones.
