

Our Favourite NEFF Kitchens

Are you stuck in a design rut? Here are some NEFF kitchens that will inspire you to begin your next project or renovation.

Whether you're building a new home or renovating an existing house, creating a new kitchen can be exhilarating. You have a blank canvas to work with and the ability to make your cooking space completely your own.

You can choose from a variety of styles, materials and colours to truly personalise the space and make it work for you and your family. Some people like classic designs with shaker cabinetry and gold tapware, while others gravitate towards industrial style kitchens with dark panels and matte black fittings.

The good news is that NEFF appliances are sleek and can suit any style of kitchen. From dainty to art-deco, here are some of our favourite NEFF kitchens from across the country.

Industrial meets art deco

This industrial style kitchen is every entertainer's dream. It has nine NEFF appliances, including three Slide&hide® ovens, a glass gas cooktop and a butler's pantry with a dishwasher, compact microwave and warming drawer. Tucked away behind a sliding door, this is the perfect space for food preparation. The dark laminate panels used throughout the kitchen contrast against the white benchtops and light timber shelving, creating an industrial look and feel that will never go out of fashion. Contemporary Hamptons style kitchen

This Hampton style home has an open plan kitchen with an impressive marble island bench that sits at the centre of the room. The white marble benchtop with intricate veins adds a touch of luxury to the understated design. The contemporary kitchen features six NEFF appliances, including three steam ovens, a built in coffee machine and fully integrated dishwasher. Because the cooktop sits on the island bench, a ventilated product has been chosen, so the setting is not obstructed by a rangehood. [Click here to check out the NEFF kitchen.](#)

Luxurious Industrial

This modern kitchen has a monochrome theme with a black, grey and white colour palette used throughout the splashbacks, benchtops and cupboards. Black tapware, appliances and stools provide a sleek, modern finish with each element integrating into the kitchen perfectly. It boasts seven built-in NEFF appliances, with the star of the show being NEFF's ventilated cooktop that automatically adjusts power levels. It also has three ovens with integrated steam and microwave functionality. These are built into the wall, saving precious bench space. [Click here to check out the NEFF kitchen.](#)

Do you have a NEFF kitchen that you want to add to the list? Email us at MEL-neffau@bshg.com to find out how.
