

Building a Smarter Kitchen with NEFF Wi-Fi Enabled Appliances

A seamless and beautifully functional kitchen is the goal for anyone who loves to cook. And with NEFF Home Connect smart appliances – a suite of Wi-Fi enabled kitchen appliances that can be managed remotely with our Home Connect app – cooking just became a lot more fun and way more convenient.

What are smart appliances?

Smart appliances are items that are connected via Wi-Fi technology and able to be programmed or controlled. They can often operate on their own, be controlled remotely via a smart device and detect things like temperature, time and specific needs.

Which smart appliances do I need?

From toasters to fridges, coffee machines and ovens – smart home appliances are becoming a common inclusion in the kitchen.

If you're considering introducing a smart appliance into your space, start by thinking about the items you use most.

Do you want to be able to make a coffee at the touch of a button? Or would it help for someone to read you a recipe?

There's no hard and fast rule when it comes to your smart kitchen design and while some appliances might look flashy, make sure they are practical for you too.

You should also ensure your personal devices are compatible with the smart appliances you're looking at.

How does Home Connect work?

[NEFF Home Connect](#) allows selected appliances to be managed via your smartphone, your tablet or voice control. The best bit? With smart appliances and intuitive controls wherever you are, there's no limit to what you can create in the kitchen – whether you're at home or not.

Control your appliance via the home connect app

The Home Connect app lets you monitor and control your appliances no matter where you are. Preheat the oven. Start the coffee machine. Or let

your appliance send you notifications when dinner is ready. Home Connect puts it all at your fingertips.

Control your appliance via voice activation

Messy hands while prepping dinner and forgot to turn on the oven? No worries – use voice activation to flick it on instead. Home Connect works with both Amazon Alexa and Google Assistant too, ensuring easy access no matter your provider.

Inspiration and assistance

The Home Connect app has a range of features to help you get the most out of your NEFF appliance. From inspiring recipes to get your creative juices flowing (hello beetroot tagliatelle!) to easy access to user manuals, tips and tricks and customer service details, inspiration and assistance in the kitchen is but a click away.

Home Connect-enabled appliances

Want to get the convenience of Home Connect in your kitchen? It's already

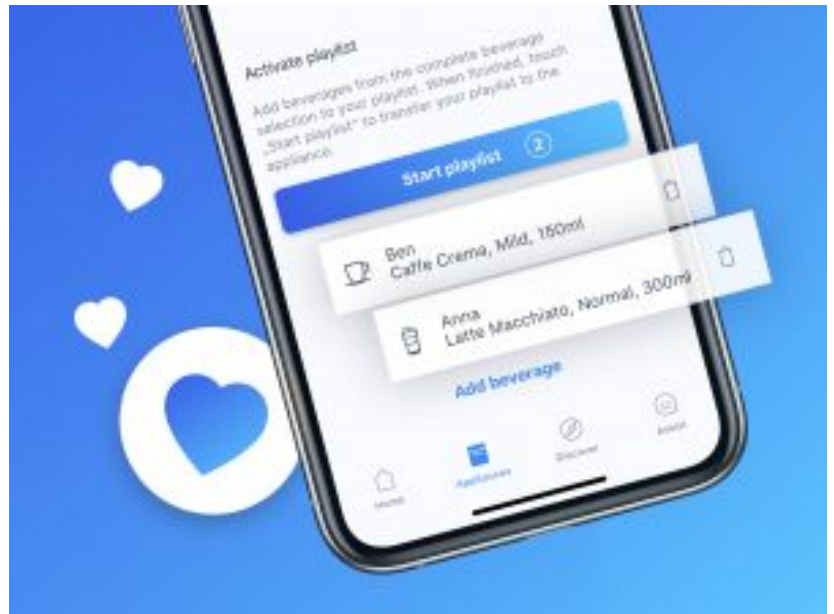

available in a range of NEFF kitchen appliances including:

Ovens

Inspiration in the kitchen can come from everywhere – even from your oven. Discover a whole new way of cooking with NEFF Home Connect ovens. With a world of recipes that have been created specifically for your smart oven, you can save your favourite recipes and send the settings straight to your oven.

Coffee Machine

In need of caffeine? The NEFF coffee machine allows you to create your favourite coffee straight from the app. Better yet, save all your family and friends' coffee preferences under their name on the app to make coffee preparation easy!

Dishwashers

There's more to life than wasting precious time washing up. Thankfully, dishwashing is made easy with NEFF Home Connect. Use Easy Start to find the right program for your dirty dishes and let the Tab Counter keep track of how many tablets you've got left. It'll even remind you to restock when you're down to the last few!

Finally, having a Wi-Fi enabled Home Connect appliance ensures you'll be able to take advantage of new features which come from future Home Connect App developments. With NEFF Home Connect, the future really is at your fingertips.

About NEFF

NEFF is a German-engineered kitchen appliance brand, with a product range that includes ovens, cooktops, rangehoods, coffee machines and dishwashers—designed to make life in the kitchen a daily pleasure. For people who love to cook, NEFF gives you the tools to create meaningful connections, express your creativity and make memories. Because real life happens in the kitchen.
