

Benefits of having all your kitchen appliances from the same brand

Ingredients

Method

Whether you're moving into a brand-new home, or flipping an old kitchen, buying new appliances is always exciting. New tools will transform the way your kitchen looks and will help you take your cooking skills to the next level. But there are so many products on the market, that it can be hard to know which appliances to choose. Making the wrong decision could be a costly mistake.

At NEFF, we believe in matching aesthetic with functionality. So, we produce striking products that are well-built and simple to use, with German design and engineering. This is consistent across our range of ovens, cooktops, dishwashers and rangehoods, so you know you're going to get a great product, no matter what appliance you purchase.

Here are some reasons to buck the mis-matched appliance trend and make sure all your kitchen tools match in 2019:

Cohesive Look and Feel

While functionality is a key driver of your appliance decisions, it's hard to ignore the way they look. Purchasing them from the same brand will save you from a decade of regret, ensuring there is visual cohesion and symmetry across the board. After all, the beauty is in the details, so everything from the gloss finish of your doors to the geometric shape of your handles should be the same.

At NEFF, we also offer our [seamless combination strips](#). This solution allows our appliances to appear perfectly in-line with no gaps when stacked vertically making them ideal for a contemporary kitchen.

One point of contact

Need help with your appliances? When you purchase from a single manufacturer you have one point of contact for all your needs. Whether you're looking for advice, a service or even a repair, our customer service team are here to help. This streamlined service makes it easy to look after your appliances for years to come.

Save Money

We are currently running a deal that will help you save 15% when you purchase four appliances or more, valid until Sunday, 31 March. [Click here](#)

[for details, because it won't last long!](#)

Purchasing an appliance is a long-term commitment. And the manufacturer you choose is going to make a big difference. So always select a brand you believe in. If their values are right, you can't go wrong.
