

## **Duck Fat Potatoes**

DIFFICULTY: MID

PREPARATION TIME: 10
MINUTES

COOKING TIME: 1 HOUR

SERVES: 8-12

## Ingredients

8 large baking potatoes 160g duck fat 4 cloves garlic smashed ¼ bunch thyme Salt and pepper to taste

## Method

Peel the potatoes and cut into quarters. Put the potatoes on the large perforated stainless steel tray. Place the tray into the oven, select FullSteam  $100^{\circ}$ C and cook for 15-20 minutes or until potatoes are cooked when tested with a fork. If you do not have a FullSteam oven you can boil the potatoes for 20-25 minute or until cooked.

Remove from the oven or strain the potatoes and set aside. Let them cool down naturally.

Preheat the oven on CircoRoasting® to 210  $^{0}$ C. Place the duck fat into a large baking tray, place on level 2 and heat for 8 minutes. Add the garlic, thyme, potatoes, salt and pepper and bake for 30 – 40 minutes or until they are golden brown. Turn the potatoes over half way through.

Place cooked potatoes on absorbent paper for 2-5 minutes before serving.

## **Notes**

Any excess duck fat can be strained, stored in the refrigerator and reused for your next batch of roast potatoes. A fork is used to test if a potato is cooked as a knife can give the impression a potato is cooked when it is not.
